| 3. | | | | | | |
| 4. | | | | | | |
| 5. | | | | | | |
| 6. | | | | | | |
| 7. | | | | | | |
| 8. | | | | | | |
| 9. | | | | | | |
| 10. | | | | | | |

| Instructions: |
|--|
| 1. For each item, the quantity of production is to be recorded in the same unit over the months, preferably as specified in ASICC. |
| 2. Quantity figures of the last two months (to be recorded in cols. 5 & 6) are to be carried at the time of data collection for the current month. Current month figure is to be checked with that of previous months in order to detect any abrupt difference in quantity of production for any item. Suitable reason(s) for wide variation in quantity need to be given Block 3. |
| 3. Information contained in identification block are to be updated on a regular basis except the PSL No. |

| | |
